GREEN BUILDING VERIFICATION:

HBA definition of a Green Verified home: Only homes that are successfully inspected by Laclede Gas Company on behalf of the HBA's Green Verification Program can be called a Green Verified home for this awards program. These finished homes must be built to the Green Building Guidelines established by NAHB and must have earned a Bronze, Silver or Gold designation at the local level. NOTE: Member applicants with LEED-H certified homes may also enter this category but must provide additional information (with this application) about the inspection process, certification criteria, certification protocols, etc.

A Green Verified home is eligible for nomination within 14 months of being owner-occupied.

As the owner and builder of this Green Verified home, we are in agreement and hereby certify that said residence conforms to the description of a Green Verified home within the HBA's program parameters as noted above.
