The HBA's **Green Building Council** invites you to network and learn about products and techniques that will help you build green more affordably in today's competitive marketplace. **Phil Fingerhut** will share his expertise related to affordable green building techniques. He'll discuss value engineering, window placements, sealing and caulking, lot orientation and more! Many of his practical tips have become "best business practices" for green builders throughout the U.S.

Snacks and beverages will be provided.

This brief presentation will be held in conjunction with a Council "Issues Briefing" that will outline many interesting green tidbits. Don't miss out!
